Harsh Nagpal

Product Designer · Consumer apps · From research to shipped product

+91 85109 94412 · harshnagpal0@gmail.com · LinkedIn · Portfolio · Delhi NCR

Product designer with 3+ years designing consumer apps end to end: research, IA, UI, coded prototypes and build QA. Used to owning a product alone and working directly with founders and engineers.

EXPERIENCE

Founding Product Designer · Misfits (Shark Tank India Season 5) Nov 2023 – Present · Gurgaon

A community platform for offline meetups and clubs

- Sole product designer for all member-facing and leader-facing experiences on a platform with **160K+ downloads**, working with founders, engineers and ops from scope to release.
- Built the Misfits design system from scratch (colour, type and components, in light and dark mode), used across the member and leader apps.
- Attended meetups to see how members and hosts actually behave, and used what I saw to shape discovery and the friends features.
- Rebuilt discovery from club-first to meetup-first, cutting booking from 4 steps to 2 and driving **34% more bookings per person**.
- Created a guided club creation flow with optional AI help (names, logo ideas, about text, FAQs). Launching a club went from 2–3 days of ops support to **28 minutes, self-serve**.
- Designed the friends layer (people-you-met, friend requests only between people who met, profile redesign): **38% of attendees made at least one friend**, 53,962 friendships in-app.
- Designed the waitlist for cities Misfits hadn't launched in: **80% of people who reached the screen added their name** (12,043 people).
- Redesigned in-app chat to feel like a real group in a room: messages can be loud or a whisper, and photos and music arrive as polaroids and cassettes. Prototyped in code with Claude.
- Scoped and designed spot booking and payments (booking, cancellations, replacements, attendance) across **11K+ meetups**, and Leader Mode, the host tool used by **200+ active leaders**.

UI/UX Designer · Hestabit Apr – Oct 2023 · Noida

- Designed UI screens and interaction flows for the RV Sidekick mobile app in a 1-week design sprint, from wireframes to final UI for developer handoff.
- Contributed UI/UX for a Student Brand Management System for Jägermeister, spanning three connected portals, and early concepts for Trippin, a collaborative travel app.

UI/UX Design Intern · Graphhene Software Pvt. Ltd Jan – Mar 2023 · Noida

SKILLS

Design: Product design, 0 → 1, information architecture, interaction design, user research, usability testing, wireframing, prototyping, design systems, design QA, product analytics
